Journal of Northwest Atlantic Fishery Science

Editorial Policy

The *Journal of Northwest Atlantic Fishery Science*, published by the Scientific Council of the Northwest Atlantic Fisheries Organization (NAFO) with headquarters at the Bedford Institute of Oceanography, Dartmouth, Canada is intended to be regional in scope, publishing original research papers and notes on Northwest Atlantic fisheries science with emphasis on the environmental, biological, ecological and fishery aspects of living marine resources and ecosystems. Papers of general applicability, methodological papers and review papers relevant to other areas may also be considered. Space for "Letters to the Editor" will also be provided, when necessary, to facilitate scientific discussion of published papers containing controversial aspects. Manuscripts approved for publication are accepted with the understanding that their content is unpublished and is not being submitted elsewhere for publication. All manuscripts should be submitted to the Editor, who, with the assistance of Associate Editors expert in the field of biological oceanography, vertebrate fisheries biology, invertebrate fisheries biology and biomathematics, will ensure that the submitted papers, prior to publication, meet the high standards required for a primary scientific journal.

Editorial Board

Editor:

Mr V. M. Hodder, Assistant Executive Secretary,
Northwest Atlantic Fisheries Organization (NAFO),
P. O. Box 638, Bedford Institute of Oceanography,
Dartmouth, Nova Scotia, Canada B2Y 3Y9

Associate Editors:

Biological Oceanography — Mr A. Lee, Sea Fisheries
Laboratory, Lowestoft, Suffolk, England
NR33 0HT

Vertebrate Fisheries Biology — Dr W. Templeman,
J. L. Paton Chair of Marine Biology and Fisheries,
Memorial University of Newfoundland, St. John's,
Newfoundland, Canada A1C 5S7

Invertebrate Fisheries Biology — Dr E. J. Sandeman,
Senior Scientist, Northwest Atlantic Fisheries

Center, P. O. Box 5667, St. John's, Newfoundland,
Canada A1C 5X1

Biomathematics — Dr W. G. Doubleday, Associate
Director, Fisheries Research Branch, Department
of Fisheries and Oceans, 240 Sparks Street,
Ottawa, Ontario, Canada K1A 0E6.

Background Information

Extension of fisheries jurisdiction by states bordering the Northwest Atlantic resulted in the negotiation of a new convention on multilateral cooperation in the area with regard to fisheries. This Convention, which entered into force on 1 January 1979, established, to replace the former International Commission for the Northwest Atlantic Fisheries, the new Northwest Atlantic Fisheries Organization (NAFO). Consequently, its Scientific Council assumed from the Standing Committee on Research and Statistics of the International Commission for the Northwest Atlantic Fisheries (ICNAF) the responsibility to provide a forum for consultation and cooperation on fisheries science in the Northwest Atlantic.

The Scientific Council considered the establishment of a primary regional fisheries journal essential if its mandate is to be successfully met. Volume 1 of the *Journal of Northwest Atlantic Fishery Science* was published in December 1980. It is intended that Volume 3 will be published in two issues during 1982. The Scientific Council wishes to encourage both the submission of suitable articles for publication and subscriptions to receive the *Journal* from interested scientists and libraries of research institutes and universities.

Submission of Manuscripts

Authors with manuscripts on subjects within the scope of the *Journal*, as defined in the above Editorial Policy, are encouraged to submit them for consideration (original and two copies) to:

The Editor,
Journal of Northwest Atlantic Fishery Science,
Northwest Atlantic Fisheries Organization,
P. O. Box 638,
Bedford Institute of Oceanography,
Dartmouth, Nova Scotia,
Canada B2Y 3Y9.

Contents

NI, I-Hsun. Separation of Sharp-beaked Redfish, <i>Sebastes fasciatus</i> and <i>S. mentella</i> , from Northeastern Grand Bank by Morphology of Extrinsic Gasbladder Musculature	7
MAYO, R. K., V. M. GIFFORD, and A. JEARLD Jr. Age Validation of Redfish, <i>Sebastes marinus</i> (L.), from the Gulf of Maine-Georges Bank Region	13
TEMPLEMAN, Wilfred. Vertebral Numbers in Atlantic Cod, <i>Gadus morhua</i> , of the Newfoundland and Adjacent Areas, 1947-71, and Their Use for Delineating Cod Stocks	21
COHEN, R. E., and R. G. LOUGH. Length-Weight Relationships for Several Copepods Dominant in the Georges Bank-Gulf of Maine Area	47
ATKINSON, D. B. Partial Length as a Replacement for Total Length in Measuring Grenadiers	53
LEAR, W. H., R. WELLS, and W. TEMPLEMAN. Variation in Vertebral Averages for Year-classes of Atlantic Cod, <i>Gadus morhua</i> , on Flemish Cap	57
DAWE, E. G., and H. J. DREW. Record of a Mature Female Short-finned Squid, <i>Illex illecebrosus</i> , Captured Inshore at Newfoundland and Previous Captures of Mature Females in the Northwest Atlantic	61
ZUBCHENKO, A. V. Parasitic Fauna of Some Macrouridae in the Northwest Atlantic	67
GRIGOR'EV, G. V., and V. P. SEREBRYAKOV. Eggs of Roundnose Grenadier, <i>Coryphaenoides rupestris</i> Gunnerus 1765	73
DAWE, E. G., P. C. BECK, H. J. DREW, and G. H. WINTERS. Long-distance Migration of a Short-finned Squid, <i>Illex illecebrosus</i>	75
